

Arson Murders & Fire Investigations

CLASS IS FREE

Date: November 15th from 0800-1700

Location: Kingsburg Police Department Headquarters, 1300 California St. Kingsburg
R.S.V.P. with Jennifer Ellington, TCFD at 747-8233 ext. 215 or JEllington@co.tulare.ca.us

Instructor: Ed Nordskog

CVAI is proud to provide this 8 hour class involving current issues and cases for Fire Death Investigation. This class is geared towards patrol officers, fire fighters, detectives, fire investigators, coroner investigators and prosecutors. Every year in California, several dozen people die as a result of fire. Some are accidents, some are murders and some are fires set to cover up murders. Very few investigators understand how to tell the difference and how to determine if you have a criminal act or accidental event.

Training for Law Enforcement, Fire and other First Responder Personnel!

Detective Nordskog is a Certified Fire Investigator and a graduate of both the National Fire Academy and the ATF's Advanced Arson Investigation courses. He has been an instructor for the International Association of Arson Investigators, California Conference of Arson Investigators, the Federal Bureau of Investigation, California State POST, and the Robert Pressly Institute of Criminal Investigation for several topics in the arson and explosives field. He is a current course developer for the State POST Arson and Explosives Investigation Course. He is the course developer and instructor for Major Arson Case Investigation, Fire Death Investigation, Booby Traps, Arson for Profit, and Fire Scene investigation.
